Soft Skills : **Communication , Problem Solving , Time management ,Flexible and adaptable**

PROJECTS

Project Title: SQL-Based Data Cleaning and Transformation for Global Layoffs Dataset

Tools Used: **My SQL**

- Performed comprehensive data cleaning on a global layoffs dataset using SQL, including removal of duplicates via window functions and handling of null values.
- Standardized and transformed data, such as fixing inconsistent industry and country names, and converting date fields to proper DATE format.
- Prepared a clean, analysis-ready staging table by filtering unusable records and ensuring data integrity for downstream analysis and reporting.

Project Title: HOUSE RENTAL MANAGEMENT

Tools Used: HTML, CSS, PHP, JavaScript

- The House Rental Management System is a well-designed website that provides a comprehensive solution to simplify the management of rental properties. It offers many features and makes it easy to book houses. It has genuine credentials and satisfies clients
